

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Application of Michael E. McCadden

Art Unit 1616

Serial No. 10/603,262

Filed June 25, 2003

Confirmation No. 2868

For GEL COMPOSITION FOR THE TOPICAL TREATMENT OF
RASHES, DERMATOSES AND LESIONS

Examiner Alton Nathaniel Pryor

December 28, 2006

COMMISSIONER FOR PATENTS

SIR:

SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Applicant submits herewith, in accordance with 37 C.F.R. 1.97 and 1.98 and MPEP 609, and in compliance with 37 C.F.R. 1.56, the attached Form PTO/SB/08A (modified) for consideration and to be made of record herein. These references were cited in applicant's co-pending application, Serial No. 11/123,586. In that application, applicant is claiming a process for treating contact dermatitis, the process comprising topically applying a composition to the affected area, the composition comprising a corticosteroid, a drying agent (selected from a specified list), and water.

Applicant submits herewith a copy of the literature reference.

This IDS is being filed prior to an action on the merits and, thus, no certification or fee is believed to be required.

It is also requested that the Office correct the status of this application as it appears in the PAIR database. According to that database as of today's date, the status of the application is "Non Final Action Mailed" when, in fact, the "miscellaneous

incoming letter" of April 26, 2006 was a complete response to the January 26, 2006 Office action. Thus, this application is awaiting action by the Examiner.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'EJH', with a long horizontal flourish extending to the right.
